“NOT ME, BUT YOU”

ABOUT THE NSS :-

Since a long time, the National Service Scheme (NSS) has played an important role in strengthening the spirits and brains of college students. This scheme's overarching goal is education and service to society and the community. It is a programme in which students help to meet the needs of the community as needed. It will also assist students in conversing with society. Students that participate in this programme develop a wide range of behavioural and interaction abilities.
